## RISKS TO INVESTORS

- Negative Cash Flows:** We have had negative cash flows in the past and our net cash used in operating activities for Fiscal 2022 is ₹ (289.41) million.
- Customer Concentration Risk:** The total contribution from top five customers in terms of revenue generation for a year / period shown as percent of revenue from operations for the six months period ended September 30, 2023, and Fiscals 2023, 2022 and 2021 is 79.62%, 82.66%, 76.82% and 71.22%, respectively.
- Supplier Concentration Risk:** We are dependent on third party suppliers for our raw materials. As on September 30, 2023, our supplier network comprised 342 suppliers. The raw materials used by us include copper tubes, steel, aluminium sheets, plastic granules, compressors, controllers and RAC motors. The percentage of total purchases from top 10 suppliers vis-à-vis total purchases for that year / period for the six months period ended September 30, 2023, and Fiscals 2023, 2022 and 2021 is 62.38%, 53.04%, 46.84% and 33.87%, respectively.
- Our Company will not receive any proceeds from the Offer for Sale.
- Growth risk:** We have experienced significant growth over the past three Fiscals. EBITDA for the six months period ended September 30, 2023 and the Financial Years ended March 31, 2023, 2022 and 2021, is ₹369.77 million, ₹1,025.25 million, ₹688.03 million and ₹420.33 million, respectively. We cannot assure that our growth strategy will continue to be successful or that we will be able to continue to grow further, or at the same rate.
- Seasonality of Products:** The demand for RACs typically peak during the first half of the calendar year and reduce in the second half of the calendar year. Erratic weather conditions impacting the warm weather during the peak sales season of summer, may adversely affect our sales volumes, and could therefore have a disproportionate impact on our results of operations and financial condition in the relevant year. The percentage of revenue from sale of RACs (including sale of RAC spares and RAC components) to total revenue from operations for the six months period ended September 30, 2023, and Fiscals 2023, 2022 and 2021 is 78.34%, 83.23%, 81.68% and 86.80%, respectively.
- Trade Receivables Risk:** In the ordinary course of business, we extend credit to our customers. Consequently, we are exposed to the risk of the uncertainty regarding the receipt of the outstanding amounts. As on September 30, 2023, trade receivables is ₹1,377.65 million. The trade receivable days for six months period ended September 30, 2023 are 95 days.
- MOU with East India:** We have entered into a Memorandum of Understanding ("MoU") with East India Technologies Private Limited ("East India"), a member of promoter group and our group company. Pursuant to the MoU, only our Company may (and East India may not) engage in the manufacture of specified products such as air conditioning and refrigeration products, air handling products, kitchen appliances and washing and drying equipment, while only East India may (and our Company may not) engage in the manufacture of specified products such as audio equipment, camera equipment, desktop computers, laptops and computer accessories, renewable energy electronics, industrial engineering products, televisions and lighting equipment. In the event of any breach of the MoU by East India pursuant to which East India manufactures products similar to those manufactured by us, it may result in a material adverse effect on our business and results of operations.
- Import of Raw Material Risk:** We currently import certain of our raw materials from China where in the past there have been conditions imposed by the government in relation to the commerce and trade. China accounted for 34.05%, 21.02%, 17.01% and 14.05% of the total cost of raw materials purchased (including purchase of stock-in-trade) by our Company in the six months period ended September 30, 2023 and in Fiscal 2023, 2022 and 2021, respectively.
- Foreign Exchange Risk:** We import components and materials such as copper and aluminium sheets. The percentage of the cost of raw materials imported to total cost of materials purchased (including purchase of stock-in-trade) for six months period ended September 30, 2023 and the Financial Years ended March 31, 2023, 2022 and 2021 is 39.87%, 39.31%, 36.63% and 26.95%. The Profit / (loss) on foreign exchange fluctuation for six months period ended September 30, 2023 and the Financial Years ended March 31, 2023, 2022 and 2021, is ₹11.21 million, ₹(37.43) million, ₹19.00 million and ₹13.92 million, respectively.
- Competition Risk:** Our industry is competitive. While there are significant barriers to entry to the RAC and SDA manufacturing industry, our competitors may win market share from us by providing what may be perceived to be more advanced technologies, better designs and quality or lower cost solutions to our customers. Our competitors' actions, including expanding manufacturing capacity, expansion of their operations to newer geographies or product segments in which we compete, or the entry of new competitors into one or more of our markets could cause us to lower prices in an effort to maintain our sales volume.
