INTERNAL RISK FACTORS

Below mentioned risks are the top 5 risk factors as per the RHP:

- Our business is dependent on certain key customers and the loss of any of these customers or loss of revenue from sales to any key customers could have a material adverse effect on our business, financial condition, results of operations and cash flows.
- Our customer agreements include terms relating to liquidated damages and we have paid liquidated damages and other related claims in Fiscal 2023 and Fiscal 2024 and the three months ended June 30, 2023 and June 30, 2024. Further, our revenue from operations is significantly dependent on export sales and there is no assurance that we may be able to continue our export sales going forward.
- We intend to utilise a major portion of the Net Proceeds for funding our capital expenditure requirements. This includes part financing the cost of establishing the proposed fully integrated 6 GW facility by way of an investment in our wholly owned subsidiary Sangam Solar One Private Limited which may be subject to the risk of unanticipated delays in implementation, cost overruns and other risks and uncertainties.
- The proposed Project is dependent on various government subsidies. In the event such subsidies do not materialize or the state or central government does not approve the entire subsidy amount, we may have to raise additional working capital, which may materially impact our cash flows, financial condition and results of operations.
